## BUSINESS REVIEW

For the six months ended 30 September 2007, the Group recorded turnover of approximately HK\$296.4 million (2006: approximately HK\$298.4 million), representing a slight decrease of approximately 0.7% as compared with the corresponding period last year. Profit attributable to equity holders, however, rose by 11.2% to approximately HK\$37.8 million (2006: approximately HK\$34.0 million) and the Group continued to record an increase in net assets to approximately HK\$1.15 billion (2006: HK\$1.04 billion) as at 30 September 2007. The Group's profitability growth trend is demonstrated most notably by its net profit growth for the five consecutive periods. The satisfactory results for the six-month period were mainly attributed to the successful sale of Meister House villas and the turnaround the Group saw in its pharmaceutical and health products related business.

### Agricultural By-products Wholesale Market

During the period under review, with the supportive policies adopted by the PRC government, the Group continued to expand its core businesses of agricultural by-products wholesale markets in the PRC.

As at 30 September 2007, there were three agricultural by-products wholesale markets invested by the Group, details of which are set out below:

<b>Location</b>	<b>Approximate Site Area (million sq. ft.)</b>	<b>Percentage of Ownership Interest</b>	<b>Amount Invested (up to date of this Announcement) (in million)</b>	<b>Status</b>	<b>Anticipated Completion</b>
Xuzhou	2.1	51%	HK\$36.8	In operation	N/A
Yulin	3.3	65%	HK\$60.0	Construction work for phase 1 was commenced in December 2007	Middle of 2008
Changzhou	0.6	40%	HK\$43.7	Construction work to be commenced in the first quarter of 2008	Last quarter of 2008
<b>Total</b>	<b>6.0</b>		<b>HK\$140.5</b>		

In November 2007, the Group entered into a joint venture agreement to set up a sino-foreign co-operative joint venture company in the PRC for the development, operations and management of agricultural by-products wholesale markets and related facilities, and the sale and rental of related properties in Zhengzhou, Henan Province, the PRC. The total investment of the joint venture company, which is 51% owned by the Group, amounts to RMB260 million.

Apart from its investments in the PRC, the Group has been providing management services for the operation of North District Temporary Wholesale Market for Agricultural Products in Fanling, the New Territories, which is one of the three principal wholesale marketplaces for the trading of agricultural products in Hong Kong since April 2007. Its performance has been steady and was ahead of our budget during the period under review. It is expected that such business will further improve in the second half of this financial year.

The Group intends to continue to intensify its investment in agricultural by-products wholesale markets in the PRC to further entrench its commitment in supporting the State's "Vegetable Basket Project". The Group is actively seeking investment opportunities in other prime locations in the PRC for expansion of its agricultural by-products wholesale market business.

### **Management and Sub-licensing of Chinese Wet Markets**

The Group is currently the single largest operator of Chinese wet markets in Hong Kong, managing a portfolio of more than 850 stalls with a total area of over 300,000 square feet in 13 Chinese wet markets. During the period under review, turnover of Chinese wet markets management and sub-licensing business remained stable and reached HK\$70.8 million (2006: HK\$70.9 million), representing a small decline of approximately 0.1% as compared with that of the same period of last year.

Leveraging its strong wet market operations experience in Hong Kong, the Group has expanded its presence into the PRC Chinese wet market management business in 2006. At present, the Group manages a total of more than 1,700 stalls occupying a total gross floor area of approximately 340,000 square feet in 20 Chinese wet markets in various districts in Shenzhen, the PRC.

The Group plans to further leverage its management expertise and experience in modern Chinese wet market management to enlarge its portfolio and extend its business reach.

### **Property Development**

During the period under review, the sales of Meister House achieved remarkable results. The sale of 9 villas with an aggregate value of HK\$200 million was completed and is reflected in the Group's results for the first half of the year. Subsequently, up to 30 November 2007, a further 5 villas with a sale value of approximately HK\$78 million have been sold and their relevant revenue is expected to be included in the financial year ending 31 March 2008. The Group intends to sell the remaining 2 villas in the coming months given the prevailing favourable market sentiment.

The construction work of the Shatin Heights has been completed and show flats are currently being decorated. This project comprises 11 villas each with its private swimming pool. The sale of these villas is expected to be launched in the first quarter of 2008.

The Group proactively extended its properties development activities to the PRC during the period under review. By public land auction, the Group acquired, in July 2007, a plot with a site area of approximately 0.7 million square feet for RMB134 million in Dailingshan Dongguan, Guangdong Province. The site is planned to be developed into a residential and commercial complex with hotel facilities. The foundation and construction work are scheduled to commence in 2008.

On 23 November 2007, the Group further acquired 50% equity interest in a PRC company which has acquired by way of public auction a land site of approximately 2.4 million square feet in Fuzhou, Jiangxi Province. It is intended that the site will be developed into a residential cum commercial complex. The Board considers that this acquisition allows the Group enjoying the economic and social development of Fuzhou and enables the Group to further strengthen its land bank in the PRC.

The Group aims to enhance its revenue stream from property development through identifying suitable sites both in Hong Kong and in the PRC so as to replenish its land bank.

### **Property Investment**

As at 30 September 2007, the Group maintained an investment property portfolio of retail shops and residential premises with a net book value of approximately HK\$297.8 million (2006: approximately HK\$285.3 million). The Group continues to look for suitable retail premises for the expansion of its investment property portfolio. The investment properties offer the Group a steady cash flow as well as opportunities for capital appreciation.

The Hong Kong property market demonstrated a strong rebound during the first half of the Group's current financial year, with property prices recording a double digit percentage growth during the six months. The Group believes the local property market will maintain its vibrant momentum in the coming year, with an increased amount of capital flowing into the property sector.

### **Investment in Pharmaceutical and Health Products Related Business**

The results of our pharmaceutical and health product related business continued to improve during the period under review with a total turnover of HK\$213.9 million (2006: HK\$172.5 million), representing a 24% increase over that of the same period last year. Profit generated by this business attributable to equity holders for the first half of the year amounted to HK\$15.4 million compared with a loss attributable to equity holders of HK\$5.3 million in the same period of the previous year.

During the period under review, 14 new retail outlets were increased bringing the total of outlets in Hong Kong and the PRC to 94.

The Group expects that the performance of its pharmaceutical and health products related business will further improve in light of the healthy economy in both the PRC and Hong Kong and the population's increasing health consciousness.

The gearing ratio was 22.8% (31 March 2007: 7.4%), calculated with reference to the Group's total borrowing's net of cash and bank balances and equity attributable to equity holders of the Company of approximately HK\$253.5 million and HK\$1,113.0 million respectively.

As at 30 September 2007, the Group's investment properties, with a carrying amount of HK\$315.5 million (31 March 2007: HK\$252.2 million), and certain rental income generated therefrom, were pledged to secure the Group's general banking facilities, HK\$147.9 million (31 March 2007: HK\$89.4 million) of which was utilised as at 30 September 2007.

The Group's capital commitment as at 30 September 2007 amounted to approximately HK\$35.1 million (31 March 2007: approximately HK\$31.7 million).

The management is of the opinion that the existing financial resources will be sufficient for the Group's future expansion plans.

## **FUND RAISING**

Apart from the issue of unlisted warrants raising net proceeds of approximately HK\$4 million in June 2007 (as announced on 15 May 2007), with a view to expand the Group's investments as well as to strengthen its financial position, the Company disposed of 210 million shares in Wai Yuen Tong Medicine Holdings Limited during the period under review. The net proceeds of approximately HK\$93.8 million from the disposal are intended to be used as to approximately HK\$50 million for the development and acquisition of wet markets and agricultural by-products distribution centre business and the remaining balance as general working capital of the Group.

## **EMPLOYEES AND REMUNERATION POLICIES**

The Group managed to continue growth momentum through further expansion of its focused business areas and concentration of resources in its redefined core businesses.

The encouraging results of the first half of the year have laid a solid foundation for the Group to strengthen its profitability.

Although the Group's recently commenced investment in PRC agricultural by-product wholesale markets has yet to generate return, the Group's expansion upstream in the agricultural by-product distribution network allows it to integrate its agricultural by-product distribution operations, which cover wholesale markets, logistic services and Chinese wet markets. Such a set up is expected to not only create better cost-efficiency, but also enable the Group to command a prominent position in agricultural by-product distribution in the PRC and Hong Kong.

Given the relative stability of the Chinese wet market business and the booming property market, the directors of the Company are optimistic about the full year performance.
